SUMMARY

Computer Science student specializing in **AI**, actively building hands-on **Data Science skills** through the **Digital Egypt Pioneers Initiative (DEPI)**. Proficient in **Python, SQL, Pandas, NumPy, and Scikit-learn**, with practical experience in data cleaning, EDA, visualization, and **machine learning workflows**. Seeking an entry-level **Data Analyst / Data Science** role to apply analytical skills and grow toward **AI Engineering**.

EDUCATION

Bachelor of Computer Science and Artificial Intelligence — Damietta University (FCAI)

(2024 – 2028)

GPA: 3.43 / 4.0

EXPERIENCE

Data Science Intern — Digital Egypt Pioneers Initiative (DEPI) EGYPT-HYBRID

(2026 – Present)

Data Science Track

- Developed practical skills in Python, data analysis, databases, SQL, machine learning, and data visualization through structured training and hands-on labs.
- Applied data processing and analysis techniques to real datasets, translating raw data into actionable insights.
- Built working knowledge of machine learning workflows and MLOps fundamentals using **Python, Pandas, NumPy, SQL, Git, GitHub, and MLflow**.
- Strengthened technical communication, documentation, and problem-solving skills through team-based assignments.

PROJECTS

- AIBox — AI Engineering Learning Project** *Python | Data Analysis | Machine Learning | Git/GitHub*
- Building an evolving, portfolio-style project that integrates data science, machine learning, and AI engineering skills in one codebase.
- Implemented core data processing, analysis, and visualization pipelines, following software development best practices (version control, documentation).
- Roadmap includes expanding into deep learning, LLMs, Retrieval-Augmented Generation (RAG), AI agents, API development, and MLOps deployment.

TECHNICAL SKILLS

- Programming:** Python
- Data Science:** NumPy, Pandas, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Data Visualization, Statistics, Probability
- Machine Learning:** Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, Scikit-learn
- MLOps & Experiment Tracking:** MLflow, MLOps Fundamentals
- Databases:** SQL, Relational Databases, Database Fundamentals
- Tools & Platforms:** Git, GitHub, Jupyter Notebook
- AI:** Artificial Intelligence Fundamentals, Prompt Engineering
